

### EQUATION SKILL TEST 3: Matching Equations to Representation

Note to teachers: It may be helpful to use a cover sheet of paper. Pull the cover sheet down far enough to show the model and read the text. Then, pull the sheet of paper down to show the problem and read the directions. Record “+” for an independent correct response or “-“ for incorrect response in blank.

\_\_\_ Circle the equation that shows what you see in this picture.

$$2 + 2 + 2 + 2 = 8$$

$$2 + 4 = 6$$

$$4 + 4 + 4 = 12$$

\_\_\_ Circle the equation that shows what you see in this picture.

$$3 + 3 + 3 = 9$$

$$3 + 6 = 9$$

$$6 + 6 + 6 = 18$$

Student Name: \_\_\_\_\_

\_\_\_ Circle the equation that shows what you see in this picture.

$$5 + 3 = 8$$

$$5 + 5 + 5 = 15$$

$$3 + 3 + 3 = 9$$
